DETAILED ACTION***Response to Amendment***

1. The amendment to the claims filed on 1/14/2005 does not comply with the requirements of 37 CFR 1.121(c) because the claims submitted marked "previously presented" do not correspond to the pending claims. See description in paragraph 2 on the next page for details. Amendments to the claims filed on or after July 30, 2003 must comply with 37 CFR 1.121(c) which states:

(c) *Claims*. Amendments to a claim must be made by rewriting the entire claim with all changes (e.g., additions and deletions) as indicated in this subsection, except when the claim is being canceled. Each amendment document that includes a change to an existing claim, cancellation of an existing claim or addition of a new claim, must include a complete listing of all claims ever presented, including the text of all pending and withdrawn claims, in the application. The claim listing, including the text of the claims, in the amendment document will serve to replace all prior versions of the claims, in the application. In the claim listing, the status of every claim must be indicated after its claim number by using one of the following identifiers in a parenthetical expression: (Original), (Currently amended), (Canceled), (Withdrawn), (Previously presented), (New), and (Not entered).

(1) *Claim listing*. All of the claims presented in a claim listing shall be presented in ascending numerical order. Consecutive claims having the same status of "canceled" or "not entered" may be aggregated into one statement (e.g., Claims 1–5 (canceled)). The claim listing shall commence on a separate sheet of the amendment document and the sheet(s) that contain the text of any part of the claims shall not contain any other part of the amendment.

(2) *When claim text with markings is required*. All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of "currently amended," and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of "currently amended," or "withdrawn" if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as "withdrawn—currently amended."

Art Unit: 3677

(3) *When claim text in clean version is required.* The text of all pending claims not being currently amended shall be presented in the claim listing in clean version, *i.e.*, without any markings in the presentation of text. The presentation of a clean version of any claim having the status of "original," "withdrawn" or "previously presented" will constitute an assertion that it has not been changed relative to the immediate prior version, except to omit markings that may have been present in the immediate prior version of the claims of the status of "withdrawn" or "previously presented." Any claim added by amendment must be indicated with the status of "new" and presented in clean version, *i.e.*, without any underlining.

(4) *When claim text shall not be presented; canceling a claim.*

(i) No claim text shall be presented for any claim in the claim listing with the status of "canceled" or "not entered."

(ii) Cancellation of a claim shall be effected by an instruction to cancel a particular claim number. Identifying the status of a claim in the claim listing as "canceled" will constitute an instruction to cancel the claim.

(5) *Reinstatement of previously canceled claim.* A claim which was previously canceled may be reinstated only by adding the claim as a "new" claim with a new claim number.

2. Since the reply filed on 1/14/2005 appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to submit an amendment in compliance with 37 CFR 1.121 in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

3. **As a convenience, examiner notes the specific discrepancies:**

- claims 2-9 need to have line 1 amended to read --A process for producing a film....--, as the newly-submitted claims omitted the "a" before film, which is present in the pending claims.
- Also, claim 2, line 2 reads "10.about.about 500 μm ", and to match the previously presented claim, it should read --10 ~ about 500 μm ---

Art Unit: 3677

- Also, claim 7, line 2 reads “10.about.about 40”, and to match the previously presented claim, it should read --10 ~ about 40--.
- Claims 6 and 7 are labeled “previously presented”, but they are actually currently amended, as the --Duro A-- is new . Applicant should change the identifier to “currently amended”

Examiner had begun to examine the case before she noticed the non-compliance. It appears the case would be in better condition for allowance if the following items were fixed. Please make sure to change the status identifier to “currently amended” if the claims are amended.

- Claims 2 and 7 should be changed to read --about 10 to about 500-- and --of about 10 to about 40-- respectively. The tilda will be problematic.
- Claim 21 has two minor typos: step c), line 4, “be weight” should be --by weight-- and line 8 of the step, “on H atom” should be --one H atom--.

Examiner believes, subject to a final review, that these changes will place the case in condition for allowance.
